

CIVIS Short term mobility call

Section: Endocrinology, Urology and Sexual Health

Student's School: Sexual and reproductive health

16-20 May 2022

DAY 1

08:30 - 09:00 *Welcome*

09:00 - 11:30

Physiology and clinical assessment of female reproductive function, **Stavroula Paschou**

Polycystic ovary syndrome, **Melpomeni Peppa**

Hyperprolactinemia, **Thierry Brue**

Reproduction and femininity issues in women with craniopharyngiomas, **Frederic Castinetti**

Premature ovarian insufficiency, **Irene Lambrinoudaki**

11:30 - 12:00 *Coffee Break*

12:00 - 13:30

Congenital adrenal hyperplasia, **Cecile Brachet**

The gonadotropic axis from prenatal life to puberty in females, **Cecile Brachet**

Female reproductive health after cancer, **Jose Luis Bartha**

Transgender male to female, **Irene Lambrinoudaki (Neoklis Georgopoulos)**

Fertility and pregnancy in Cushing's syndrome, **Frederic**

Reproductive health after organ transplantation, **Romain Boissier**

13:30 - 15:00 *Lunch Break*

15:00 - 17:00

Workshop in Groups – Clinical case scenarios: Students will learn the work-up, management and follow-up of the major diseases of the female reproductive system taught during the day. **Irene**

Lambrinouadaki, Melpomeni Peppa, Nikolaos Vlahos, Panagiotis Vakas, Konstantinos Stravodimos, Stavroula Paschou

DAY 2

09:00 - 11:30

Physiology and assessment of male reproductive function, **Andrea Isidori**

Erectile dysfunction, **Kostas Stravodimos**

Primary male hypogonadism, **Lucio Gnessi**

Secondary male hypogonadism, **Lucio Gnessi**

The gonadotropic axis from prenatal life to puberty in males, **Cecile Brachet**

11:30 - 12:00 *Coffee Break*

12:00 - 13:30

Male reproductive health after cancer, **Antonio Carbone**

Testicular tumors, **Andrea Isidori**

In utero predictors of disease in later life (for both male and female), **Jose Luis Bartha**

Reproductive health after organ transplantation, **Romain Boissier**

13:30 - 15:00 *Lunch Break*

15:00 - 17:00

Workshop in Groups - Clinical case scenarios: Students will learn the work-up, management and follow-up of the major diseases of the male reproductive system taught during the day. **Irene Lambrinouadaki, Melpomeni Peppa, Nikolaos Vlahos, Konstantinos Stravodimos, Stavroula Paschou**

DAY 3

09:00 - 11:30

Causes of female infertility, **Melpomeni Peppa**

Causes of male infertility, **Andrea Isidori**

Work up of the infertile couple, **Nikolaos Vlahos**

11:30 - 12:00 Coffee Break

12:00 - 13:30

Methods in basic research to address sex differences in metabolism and cardiovascular disease, **Sara Cogliati**

Fertility preservation in women with cancer, **Nikolaos Vlahos**

Social freezing, **Charalampos Siristatidis**

13:30 - 15:00 Lunch Break

15:00 - 17:00

Workshop in Groups – work-up and management of the infertile couple: real scenarios with patients, **Irene Lambrinoudaki, Melpomeni Peppas, Nikolaos Vlahos, Panagiotis Vakas, Konstantinos Stravodimos, Stavroula Paschou**

DAY 4

09:00 - 13:00

Observership of urological, gynaecological surgeries and endocrine clinics in Groups, **Irene Lambrinoudaki, Melpomeni Peppas, Nikolaos Vlahos, Panagiotis Vakas, Konstantinos Stravodimos, Stavroula Paschou**

13:00 - 16:00 Break

16:00 - 19:00

Tour visit in Athens

Meeting with government departments and civil society

20:00 Traditional Greek Dinner with Faculty and Students

DAY 5

09:00 - 11:30

Contraception, **Theodor Kalampokas**

Sexually transmitted diseases: prevalence and prevention, **Nikos Vlahos**

Sexual health around the world. Barriers and needs: **Theodor Kalampokas**

11:30 - 12:00 Coffee Break

12:00 - 13:30

Case presentations by students in Groups

13:30 - 15:00 Lunch and End of the School

<i>Theme</i>	<p><i>Theme: Health</i></p> <p><i>Topic: Endocrinology, Urology and Sexual Health</i></p>
<i>Format of mobility</i>	<i>Hybrid: physical and virtual</i>
<p><i>Duration</i></p> <p><i>Dates</i></p>	<p><i>CIVIS STUDENT WEEK extending to five (5) days</i></p> <p><i>16 -20 May 2022</i></p>
<i>Description</i>	<p><i>The objective of this School is to familiarize students with the clinical manifestations, diagnosis, medical and surgical management and prevention of the most common diseases of the female and male reproductive system, with a focus to infertility, contraception and sexual health. Students will have the opportunity to attend clinically oriented lessons at the first half of the day and then implement their knowledge on case solving based on clinical case scenarios in workshops of small numbers of students. At the end of the school, students will present the full work up and management of their cases, so that they are accredited for the school.</i></p> <p><i>Class Instruction: 18 hours</i></p> <p><i>Practice Lab/Clinics: 10 hours</i></p> <p><i>Surgeries: 4 hours</i></p> <p><i>Theory: Amphitheatres at Aretaieio and Attiko Hospital, School of Medicine, National and Kapodistrian University of Athens</i></p> <p><i>Practical Training: Aretaieio Hospital, Laiko Hospital, Attiko Hospital, Alexandra Hospital</i></p> <p><i>*Please, see attached full programme</i></p>
<i>Description of the phases of the mobilities</i>	<p><i>Preparation: July 2021 - dates of School</i></p> <p><i>Implementation of mobility activities: dates of School</i></p> <p><i>Follow-up: end of School to 6 months after</i></p>
<i>Dissemination</i>	<p><i>Universities websites</i></p> <p><i>E-mails to Professors, staff and students of Universities</i></p> <p><i>Twitter</i></p> <p><i>Instagram</i></p> <p><i>Facebook</i></p>
<i>Language</i>	<i>The primary language is English.</i>

<i>Academic recognition (credits)</i>	<i>A set number of ECTS will be provided based on the duration of the activity, students' workload and the total number of hours dedicated by the students (1-2 ECTS)</i>
<i>Profile of participants</i>	<i>Students: 10 local and 20 international undergraduate students from Medical Schools of CIVIS Universities (5th and 6th year) - all physical</i> <i>Speakers: Professors from the host University, Visiting professors from the CIVIS partners, other invited speakers - physical and virtual</i>
<i>Number of local student & number of international students</i>	<i>Students: 10 local and 20 international undergraduate students from Medical Schools of CIVIS Universities (5th and 6th year) - all physical</i>
<i>Key feature events</i>	<i>Lectures by both local and visiting professors from the partner universities on the theme</i> <i>Student case scenarios presentations</i> <i>Workshops involving academics & students</i> <i>Round-table discussions</i> <i>Combination of theory and practice, with observations of clinics and surgeries</i>
<i>Other planned events/social program</i>	<i>The program will offer opportunities to explore local culture, by engaging also local students as guides.</i> <i>The program will offer opportunities to explore local cuisine and music with traditional meals.</i>
<i>Participation of different stakeholders</i>	<i>The program will include also guest speakers from government departments, decision or policy makers, the business world and civil society to present their views on relevant issues.</i>
<i>Results</i>	<i>Students will prepare case presentations in groups at the last day of the School</i> <i>Students will prepare a case series (of all cases presented in the last day) to be published</i>
<i>Impact and transferability</i>	<i>The School will be organized with the principle of interactivity between students and academics with a clinical focus, so that it will create a solid basis for further relevant Schools to be organized by other CIVIS Universities.</i>
